

A SIMPLE ACT CAN SAVE A LIFE

From experience we know that coming to terms with an uncertain future of supporting a stroke patient at home is not easy. Therefore we would like to support you by giving you a **FREE STROKE CARE AT HOME MANUAL** as well as the details of **LOCAL STROKE PATIENT SUPPORT ORGANIZATIONS**.

There is something you can do for us as well. **WE NEED YOUR HELP** to understand how stroke patients behave when their symptoms appear. Stroke patients need high quality medical care as quickly as possible, so increasing awareness of the stroke symptoms can save lives.

BY TAKING AN ANONYMOUS 3-MINUTE SURVEY YOU CAN HELP US SAVE LIVES. Simply scan this QR code with your smartphone camera to launch the survey or visit us at **FASTEROES.COM/PATIENTS**

TOGETHER WE CAN SAVE THE WORLD – ONE GRANDPARENT AT A TIME.
