LEAVE YOUR LEGACY

As an Angels Initiative MARNA PR

Strive to:

1 Ensure our region has appropriate geographical coverage, so that all stroke patients have access to the same level of care wherever they are.

2 Continuously improve the quality of care, to offer our patients the best outcomes. This is represented by a minimum Gold and a target of Platinum status according to the ESO Angels awards criteria.

3 Grow the people in our Angels community including doctors, nurses, ambulance staff and everyone in the stroke team through

education, support, mentorship, sharing ideas and providing acknowledgement.

4 Build and develop an efficient regional referral network, where primary, comprehensive centres and EMS services work together to provide patients the best level of care.

This is our Courd
