

HYPERACUTE PATHWAY OPTIMIZATION CARD GAME

Instructions **AIS** & **ICH**

CARDS

Cut out 4 sets

There are 4 sets of "card" strips.

Emergency Services = Orange

Emergency Physician = Purple

Nurses = Blue

Stroke Physician = Yellow

Cut out each of the following cards to use in your activity, writing the times on to the cards as you complete each step.

Contraindications Time:

Contraindications Time: 2 mins

Immediate Transport

Time:

Stroke Screening

Time:

Hospital Notification

Time:

Blood Sugar Test

Time:

Blood Pressure

Time:

Patient Current & Recent Medical History

Time:

Medication

Time:

ABC's

Time:

**Absolute Contraindications
For Thrombolysis**

Time:

FAST Checks

Time:

Inform Stroke Team

Time:

Inform Radiology

Time:

Inform Clinical Lab

Time:

Transfer To CT

Time:

Establish IV Access

Instructions

Respiratory Rate

Time:

Draw Blood For Lab

Time:

Blood Pressure

Time:

Patients Weight

Time:

Determine Time Last Known Well

Time:

ECG

Time:

Manage Glycemia

Time:

Manage Temperature

Time:

Lower Blood Pressure

Time:

Maintain Blood Pressure (<140)

Time:

Preparing Anticoagulant Reversal

Time:

Treatment - Anticoagulant Reversal

Time:

Patient History

Time:

Physical Examination

Time:

NIHSS Stroke Assessment

Time:

Contraindications

Time:

CT Scan

Time:

CT Analysis

Time:

Diagnosis

Time:

Significant Lab Results Reported

Time:

Consent Confirmation

Time:

Treatment Using Thrombolysis

Time:

Further Scans

Time:

Preparation Of Thrombolysis

Time:

Diagnosis

Time:

Call Neurosurgeon

Time:

CTA Scan

Time:

GCS Assessment

Time:

CTA Analysis

Time:

Treatment - Anticoagulant Reversal

Time:

Secondary Transfer

Time:

CT Perfusion
